

Very Short Brief on the Book Entitled: **Unlocking the Secrets of DHUL-QARNAIN (AKHENATEN) and Yājouj and Mājouj**

Hamdi bin Hamza Al-Suraiseri Al- Juhani

Master Degree of Economic Development Administration Former Member of Saudi Shura Council, KSA
hh.aljuhani@gmail.com

Abstract: The year 570 had witnessed the birth of the **Prophet Mohammed** (PBUH) in holy Mecca, and in 610, **Prophet Mohammed** (PBUH) has been sent by **Almighty God** as messenger and prophet for all humanity. And since that blessed time, Angle Gabriel used to descend with Quran to **Prophet Mohammed** in perfect and eloquent Arabic Language. Quran had continued to descend for twenty-three years till the death of the honorable prophet. The chapters (surahs) of the holy Quran included many historical stories. One of these chapters had the title of “The Cave (Kahf)” which included many stories. One of these stories had the title of “**Dhul-Qarnain and Yājouj & Mājouj**”.

Keywords: the Book; Entitle; Unlocking; Secrets; DHUL-QARNAIN (AKHENATEN); Yājouj; Mājouj

Introduction

This story “**Dhul-Qarnain and Yājouj & Mājouj**” tells about the history of a great personality from a very famous old civilization who had a very mysterious story and had a great achievement and great discoveries as mentioned in Quran.

Muslims had been very occupied by solving the problems relating to the identification of this historical personality, the questions raised as follow:

- Who was that historical personality?
- What civilization he was belonging to?
- Which period of time he was?
- Where are the sunset site and the sunrise site that he discovered during his trip?
- Who were the people who asked **DHUL-QARNAIN** to help them to built a barrier against their enemies (**Yājouj and Mājouj**)?
- What is the meaning of **Yājouj and Mājouj** and to what language it belongs?
- What was the destiny of **DHUL-QARNAIN in that foreign country?** And many other questions. These questions were related only to the **SECOND PART** of the Curriculum vitae of this personality. **As far as the first part of the C.V of this personality. Almighty God** did not give any source of information about the first part of this personality as a wisdom from **Almighty God** to encourage people to think in the **first part** of the life of this historical personality.

Many efforts and researches were performed by the interpreters and the researchers to find the answer for this mystery, some of them concluded many

assumptions such as the Great Alexander or Cyrus of Persia and others which were not the right conclusions. In comparison with the findings & facts that have been reached and analyzed and concluded in our book entitled “**Unlocking the Secrets of DHUL-QARNAIN (AKHENATEN) and Yājouj and Mājouj**”

I started my research in 1997 on studying and analyzing the Quranic facts about this personality which pointed out that, this personality left his country to carry out the message of Almighty God. This message from **Almighty God** started by ordering this personality to immigrate from his country to carry out his message to other nations, as part of his trip to pass through the following sites:

- 1- **The discovery of the location of the Sunset site.**
- 2- **The discovery of the location of sunrise site.**
- 3- **The discovery of the location of a country of whose people requested Dhul-Qarnain to protect them from the aggression of Yājouj & Mājouj.** The name of this country as per Quran is (The country between two barriers)

In 1997, I started the research that was aiming at discovering the secret of (**DHUL-QARNAIN**) and (**Yājouj & Mājouj**). And in the year 2000, I was nominated to visits china to attend an international meeting. That meeting was in the city of changhai, where I had a chance to talk to a Chinese professor whom I asked about the meaning of Yājouj & Mājouj and with my great happiness and surprise, he told me,

that this statement is a Chinese statement and it means (The Asian continent people and the horse continent people). Commenting on this great achievement, I felt that it was the most achievement I ever had in my life.

This discovery, meant that the people who asked (**DHUL-QARNAIN**) to help them are the Chinese people, and the country is china and (**Yājouj & Mājouj**) are the nations surrounding them.

By knowing the meaning of this statement, I planned to start a research in the old Chinese history.

Fortunately, I discovered that Chinese history recorded that a subject people came to china from Asian continent and, have a name of "**Chu people**". Also, the Chinese history recorded that those people were given the title of chu dynasty after period of years as a sign of occupying a high glorious status in Chinese society. Also, the Chinese history recorded that those people called their worship god as an "Aten" or "Aton".

By knowing this fact, I started thinking and looking for the nation which had a worshiped Godin historical civilization called "Aten".

I made a research in other old civilizations like Indian civilization, Persian civilization and Egyptian civilization, and then by the help of **Almighty God**, I found out that, the nation that had a name of their God as "Aten" was the old Egyptian civilization.

By reaching to this great discovery, I was so enthusiastic to go for visiting old Egyptian civilization and with all my happiness, I found the **SECOND** key for identifying the personality as the beginning part of the curriculum of the personality "**DHUL-QARNAIN**" as mentioned in the holy Quran.

By conducting a research in the old Egyptian civilization, I found out the following facts:

1- A great discovery related to unlocking the secret of the Heliographic language that was spoken by old Egyptian people has been achieved. This discovery was achieved by the French archeologist Mr. Jean Francois Champollion in 1820. This discovery also encouraged many other archeologists to get involved in the process of discovering the old Egyptian history. This discovery also helped to know the political system that was applied in that old historical nation which compose of **three states** as follow:

- The **old State** in which the three high famous pyramids were built.

- The **middle State**: which also were comprised of many dynasties

- The **Modern State**: which comprised of many dynasties which had occupied great status and great history was formed by Pharaoh Ahmose **1580** B.C. One dynasty of this state was very famous because it had a very famous pharaohs, one of these pharaohs was called "Amenhotep III". This pharaoh

had a son called Amenhotep -(IV), who was selected to be the crown prince for his father and then, inherited him to be the king of Egypt after the death of his father. This event took place in the year **1360** B.C.

- This great king changed his name from Amenhotep -(IV) to new name called Akhenaton, which means, (the slave of the sun God), and he put a great effort to get rid of all other beliefs such as, Amon, Raa..... Etc.

- Akhenaton as recorded in the history of Egypt confirmed that, He ruled as a king for 18 years, then he and his family and his guards disappeared from the whole scene. This event took place on 1342 B.C.

- By knowing that, the word of "**Aten**" was a part of the name of thisking (Akhenaton), and the name of the God of Akhenaton which has the same word that was mentioned in china history, The Whole secret of **DHUL-QARNAIN** are **completely UNLOCKED**.

And by arriving to these results, the story and the mystery of the C.V of DHUL-QARNAIN, that started in the Holly Quran has been unlocked: which mean that **DHUL-QARNAIN is Akhenaton and Akhenaton is DHUL-QARNAIN**.

After 15 years, of the publishing of the book entitled (Unlocking the Secrets of **DHUL-QARNAIN (AKHENATEN) and Yājouj and Mājouj**. Many people approached us recommend to produce the contents of this book as a film in English language, and the to be translate in other languages. This Idea is a good appreciation, and we are now looking for partners to cooperate in actualizing this project.
