Abstract: There are many theories about the origin, structure, nature and evolution of the cosmos. Every theory is good and also not every theory can be described the universe and could not explain the universe indefinitely.

Between 1970_77 years, I have conducted researches and studies on the origin, structure, nature and evolution of the cosmos and proposed A New Hypothetical Model of Cosmology with hundreds of postulates by taking several facts. On 1st July 1977 on the basis of those postulates, a book was published in the name of Irlapatism- Irlapati Theory of Universe by supporters. World scientists have done more researches and extensive discussions on my hypothesis and theorize the actual universe and cosmology. In this article I explained how the Big Bang Theory is criticized and how my theory is good.

[Gangadhara Rao Irlapati. **Big Bang Theory busted by 33 top scientists (May27,2004)...My New Hypothetical Model of Cosmology is true.** *J Am Sci* 2023;19(11):33-72]. ISSN 1545-1003 (print); ISSN 2375-7264 (online).

Key words: Irlapatism-A New Hypothetical Model of Cosmology, Geo-Universe, Atomic-universe, Photon-universe

Introduction:

According to my A New Hypothetical Model of Cosmology, the cosmos is made up of similar universes in infinite number, having similar universal external and internal structure and properties, embedded one in each other and extended in ascending and descending order. To explain and justify this model, there are three universes so far known to us (a) Geo-universe (b) Atomic-universe (c) Photon-universe. These three are having similar universal external and internal structure and properties, embedded one in each other and extended in ascending and descending order. Of these three, we have known some extent about the internal structure and properties of the Geo-Universe, but we do not know its external structure. We have known some extent about the external structure and properties of the Photon-universe, but we do not know its internal structure. Between of these three universes, we came to know a large extent about the internal and external structure and properties of the Atomic-universe. Hence, I have taken the similarities of external structure and properties between the Geo-universe and Atomic-universe to propose that all the universes in ascending and descending order of the cosmos are having similar universal internal structure and properties. The

similarities of external structure and properties between the Atomic-universe and Photon-universe are taken to propose that all the universes in ascending and descending order of cosmos are having similar external structure and properties. And the manner in which of these three universes i.e., embedded one in each other, extended in ascending and descending order to propose that all the universes in ascending and descending order of the cosmos are embedded one in each other and extended in ascending and descending order. This doesn't mean that these photons, atoms, universes etc. are arranged one on another as cycles separately. The cosmos is enormous mixed compound of photons, atoms, universes etc. that are extended in ascending and descending order, embedded one in each other in the form of super matter or super fluid or super fluid matter.

Descending order of creation:

The Geo-universe that means the universe seen around our earth is having magnificent structure and properties such as galaxies, stars and planets and some planets such as earth are having continents, countries, oceans, mountains, cyclones, living beings etc. Such Geo-universe being built by universes of its descending order of creation that means atoms.

Atomic-universe that means the atom present in several forms from hydrogen to uranium etc. is another gigantic universe, having magnificent structure and properties such as electrons, protons, neutrons, etc. and continents, countries, oceans, cyclones, trees, animals, human beings may be present on some neutrons having suitable conditions exactly similar to the earth planet resembling to the Geo-universe. Such Atomic universe being built by universes of its descending order of creation that means energy particle 'photons'.

The Photon-universe that means the particle 'photon', related to energy present in several forms of electromagnetic radiation is also another gigantic universe having magnificent structure and properties resembling to the Geo-universe and atom. Such Photon-universe may also being built by universes of its descending order of creation that is not yet known to us.

Thus, the descending order of creation continuous infinitely.

Ascending order of creation:

The Photon-universe that means the particle related to energy 'photon' having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that means atom. All components in the atom are built by these 'photons' in infinite number. Such each and every energy particle 'photon' in the Atomic-universe is basis to an infinite descending order of creation.

The Atomic—universe that means the “Atom” having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that means in our Geo-universe. All components in the Geo-universe such as stars, planets

Similar External Structure & Properties

According to this model, all universes in ascending and descending order of the cosmos are having similar external structure and properties. All universes in either ascending or descending order of creation have the similar external structure and properties. So, we have imagined the external structure and properties of the atom compare with external structure and properties of the photon. In the same way, imagine the photon external structure and properties compare with external structure and properties of the atom. Because, according to my model, all universes in ascending and descending order of the cosmos must have similar external and internal structure and properties. To explain and justify this, I have taken many similarities between the atom and photon. To justify this, I have taken many similarities between the atom and photon. For example:-

etc., are built by these atoms in infinite number. Such each and every atom in the Geo-universe is basis to an infinite descending order of creation.

The Geo-universe that means the 'universe' seen around our earth is a gigantic universe that is known to us, having magnificent structure and properties is being as a primary syntactic unit in the universe of its ascending order of creation that is not yet known to us. All components in that universe are built by these Geo-universes in infinite number. Such each and every Geo-universe in that ascending creation is basis to an infinite descending order of creation.

Thus, the ascending order of creation continuous infinite.

2.Similar universal structure & properties:

Of these three, we have known some extent about the internal structure and properties of the Geo-universe but, we do not know its external structure and properties. We have known some extent about the external structure and properties of the Photon-universe but, we do not know its internal structure and properties. Between of these three universes, we came to know a large extent about the internal and external, structure and properties of the Atomic-universe. So, I have taken the similarities of internal structure & properties between the Geo-universe and Atomic-universe to propose that all universes in ascending and descending order of the cosmos are having similar universal internal structure and properties. The similarities of external structure and properties between the Atomic-universe and Photon-universe are taken to propose that all the universes in ascending and descending order of cosmos are having similar universal external structure and properties.

Atomic-Universe	Photon-Universe
1) The atom appearing in several forms such as Hydrogen to uranium etc., being due to the Internal structure having different atomic particles at various numbers	2) The particle “Photon” related to energy appearing in several forms such as radio waves, gamma rays, violet rays etc being may be probably due to the internal structure having different particles at various numbers.
2)The atom exhibiting several physical and chemical Properties such as weight, colour, taste, hardness etc being due to the internal structure having different particles at various number.)The particle “photon” related to energy exhibiting properties such as wave length colour, temperature etc being may be Probably due to the internal structure having different particles at various number.

SIMILAR INTERNAL STRUCTURE & PROPERTIES

According to the model, all universes in ascending and descending order of the cosmos are having similar internal structure and properties. All universes in either ascending or descending order of the cosmos have the similar internal structure and properties. So, we have imagined the internal structure and properties of the atom compare with the internal structure and properties of the Geo-universe that's the universe seen around our earth. . In the same way, imagine the internal structure and properties of the Geo-universe, compare with the compare with the internal structure and properties of the atom. Because, according to my cosmological principle all universes in the ascending and descending order of the cosmos must have the similar external and internal and structure and properties. To explain and justify this, I have taken many similarities between the atomic-universe and the Geo-Universe. For example:-

Atomic-Universe	Geo-Universe
1)Various atomic particles at different sizes in several numbers are present in the atom	1) Various astronomical objects at different sizes in several numbers are present in the Geo- Universe
2) These atomic particles having three types of charges at negative, positive and neutral states are present in the atom	2) These astronomical objects having three type of charges at positive, negative and neutral states are present in the Geo-Universe
3) Positively charged protons are present in the nucleus	3) Stars built by atoms having positive charged nucleus are present in centre of the Geo-Universe
4) Neutrons at neutral state are present in the Nucleus.	
5) Negatively charged electrons are present at large distance of the atomic nucleus in the atom	5) Here is a concept that anti-matter cosmic bodies built by atoms having negatively charged nucleus are present at large distance of the Geo-Universe.
6) Additional neutrons called isotopes are present.	6) Additional planets called satellites around the planets are present
7) Radiation emitting from the atom.	7) Cosmic rays emitting from the Geo- Universe.
8) There is a property of nuclear fission is in the atom.	8) There is a property of super Nova is in the Geo -Universe.

Similarities and embeds:

The cosmos is made up of similar universes in infinite number that are having similar structure and properties, embedded one in each other and extended in ascending and descending order in the form of a

super fluid of spacetime. There are three universes so far known to us (a) Geo-universe (b) Atomic-universe (c) Photon-universe. These three are individual universes, having similar structure and properties, embedded one in each other and extended in ascending and descending order.

Geo-universe:

Geo-universe, that means the universe seen around our earth is a gigantic universe, having magnificent structure and properties such as galaxies, stars, planets etc. There are continents, oceans, countries and living beings on some planets in our Geo-universe. Such gigantic geo-universe is a little atom in its ascending world. That means our universe is in that ascending world just as atom is in our universe. We do not know whether our Geo-universe is in the air, water or elsewhere in that ascending world. In my opinion, our Geo-universe is in an intelligent creature in that ascending world. But what is not known to that creature in that ascending world is that there are galaxies, stars, planets and human worlds in their atoms. In their view it is thought that there are tiny particles in their atoms. But they do not know that there are galaxies, stars, planets and human worlds in their atoms just as we think that there are electrons, protons, neutrons in our atom. But we do not realize that there are galaxies, stars, planets and human worlds in the atom. In the same way as we think, they do not know that there are galaxies, stars and planets etc. in the atom of their universe. Such Geo-universe being built by universes of its descending order of cosmos and the same time being act as a primary syntactic unit in its ascending order of cosmos that is not yet known to us.

Atomic-universe:

Atomic-universe, that mean the atom present from hydrogen to uranium etc. is a gigantic universe, having similar universal structure and properties such as galaxies, stars, planets in the form of electrons, protons and neutrons exactly similar to our universe. Just as there are continents, oceans, countries and human beings on some earth-like planets in our Geo-universe, continents, oceans, countries and living beings can be present on some neutrons in the atom. That is the atom is a vast universe as our universe. But we do not recognize them. For the creatures in the atom, in their view the atom is a great universe, but they do not know that another gigantic universe exists above them, and that their atom in which they reside is acts as a tiny atom in our universe just as we do not know that our gigantic universe is a small particle in the universe above us. There may be humans on neutrons who have civilizations like countries, governments, planes, trains, ships, motors just there are humans who have civilizations on our planet. Such atoms being built by universes of its descending order of cosmos that are photons and the same atom being act as a primary syntactic unit in its ascending cosmos that is our universe.

Photon-universe:

Photon-universe, that mean photon, the particle related to energy existing in several forms of electromagnetic radiation etc. is a gigantic universe, having similar universal structure and properties similar to our universe that have galaxies, stars, planets and similar to atom that have electrons, protons and neutrons in the form of electrons, protons and neutrons. Just as there are continents, oceans, countries and human beings on some planets in our Geo-universe, continents, oceans, countries and living beings can be present on some planets in the photons. That is, the photon is a vast universe as our universe and as the atom. But we do not recognize them. For the creatures in the photon, in their view their photon is a great universe, but they do not know that another there is a gigantic universe in their ascending cosmos that is atom, and there is another cosmos above the atom that is our universe. There may be humans in the photon who have civilizations like countries, governments, planes, trains, ships, motors etc. just there are humans who have civilizations on our planet. Such photon is being built by universes of its descending order of creation that are not yet known to us and the same photon is being act as a primary syntactic unit in its ascending cosmos that is atom.

Cosmic-Environments:

The fill of structure and characteristics in the universe of the cosmos proposed as **cosmic environments**. For example the fill of structure and characteristics like galaxies, stars, planets etc in the Geo-Universe proposed as Geo-Environment, the fill of structure and characteristics like proton, neutrons and electrons etc. in the Atomic-universe proposed as Atomic-environment and the fill of structure and characteristics in the Energy-universe that means the structure in the photon that is not yet known proposed as Energy-environment.

Geo-environment:

The fill of structure and characteristics like galaxies, stars, planets, comets, meteors, asteroids, space dust including air, cyclones and all other celestial objects that are in the Geo-universe that's the universe seen around our earth is proposed as Geo-environment.

Atomic-environment:

The state of structure and characteristics like proton, neutrons and electrons and all other components that are in the Atomic-universe that's atom is proposed as

Atomic-environment.**Photon-environment:**

The state of structure and characteristics that are not yet known in the Photon-universe that is the photon is proposed as **photon-environment. Space-environment:**

Space-environment:

The state of structure and characteristics in the space like galaxies, stars, planets etc in the space is proposed as **space-environment.**

Space-climate:

The state of galaxies, stars, planets, nebulae, pulsars etc. at a particular region over a long period of time in the space is proposed as **space-climate.**

Space-atmosphere:

The state of structure and characteristics like galaxies, stars, planets and their orbits and other physical forces etc. that surrounds in the universe is proposed as **space-atmosphere.**

Space Weather:

The fill of structure and characteristics like galaxies, stars, planets and their orbits and other physical forces etc. that surrounds in the universe is proposed as space-atmosphere, the state of galaxies, stars, planets, nebulae, pulsars etc. at a particular region over a long period of time is proposed as space-climate, the state of characteristics of space-climate like solar wind flares, asteroids etc. at a particular region during a short period of time proposed as space-weather.

Space Regions:

The state of space atmosphere being in still proposed as “Inactive Space Region”, the state of space atmosphere being in active proposed as “Active Space Region” The region of space atmosphere in which the celestial bodies are more widespread areas proposed as “Space High Pressure Area” the less widespread areas proposed as “Space Low Pressure Area”.

Inactive space region:

The state of space atmosphere being in still is proposed as “Inactive Space Region” and

Active space region:

The state of space atmosphere being in active is proposed as “**active space region**”

Space high pressure area:

The region of space atmosphere in which the celestial bodies are more widespread areas is proposed as “**space high pressure area**”

Space low pressure area:

The less widespread area is proposed as “**space low pressure area**”.

Space Low Pressure Systems:

Some space times happens variation of differences of pressure in the space-climate, At such a juncture, the celestial bodies and other space dust present in the space high pressure area will try to occupy the space low pressure area all at once. In this attempt, they will whirl around the space low pressure. The centre of space low pressure area itself is the black-hole and the circular whirling celestial bodies and other space dust etc. caused by the space low pressure area is proposed as Galaxy.

Space-cyclone:

Some space times happens variation of differences of pressure in the space-climate. At such a juncture, the celestial bodies and other space dust present in the space high pressure area will try to occupy the space low pressure area all at once. In this attempt, they will whirl around the space low pressure area is proposed as “**space-storm**” which is galaxies.

Eye of space-cyclone:

The centre of space low pressure area itself is the **black-hole** and the circular whirling celestial bodies and other space dust etc. caused by the space low pressure area is proposed as “space-storm” that's galaxy.

Space genesis:

Empty spaces that are space voids formed in some places in the space as a result of the movements of celestial objects where space pressure is low relative to its immediate surroundings. It is often an indicator of coming space low pressure area. As a result, a low pressure system in the space atmosphere develops when these celestial objects in the surroundings space high pressure area rushes in to fill the empty space. They will try to occupy that empty space all at once.

In this attempt, the whirl around that space low pressure area due to the obstruction of centripetal force acceleration as a space-storm that is galaxy. As the celestial objects rotates, a space-eye form in the center of the space-storm that is galaxy is proposed as Black-hole. After this, the space-low pressure area filled and neutralized with celestial objects, those will be scattered that is proposed as star clusters or interstellar cloud of gas and dust.

Earth tilting:

The earth is not tilted at a constant angle of 23.5 degrees as expected so far but slightly ups and downs by 23.5 degrees and revolves in oscillating order on sun's fulcrum, which orbits the center of our galaxy tipped at an angle of 60 degrees bobs ups and downs and above and below the galactic plane is the root cause of the climate changes, seasons, monsoonal changes on the earth.

Results and analysis:

Universal similarities: According my theory, there are three universes so far known to us (a) Geo-universe (b) Atomic-universe (c) Photon-universe. These three are having similar structure and properties. Of these three, we have known some extent about the internal structure and properties of the Geo-universe, but we do not know its external structure. We know some extent about the external structure and properties of the Photon-universe, but we do not know its internal structure. Between of these three universes, we came to know a large extent about the internal and external structure and properties of the Atomic-universe. Hence, I have taken the similarities of external structure and properties between the Photon-universe and Atomic-universe to propose that all the universes in ascending and descending order of the creation are having similar external structure and properties. The similarities of internal structure and properties between the Atomic-universe and Geo-universe are taken to propose that all the universe in ascending and descending order of cosmos are having similar internal structure and properties.

Uniform comparisons between atom and photon:

The similarities of external structure and properties between the atom and photon are taken to propose that these two are having similar internal structure and properties.

Structure: The Atom appearing in several forms such as hydrogen to uranium etc. being due to the internal structure having different atomic particles at various number. In the same manner the "photon" related to energy appearing in several forms such as radio waves,

gamma rays, violet rays etc. being may be probably due to the internal structure having different particles at various numbers.

Properties: The atom exhibiting several physical and chemical properties such as weight, color, taste, hardness etc. being due to the internal structure having different particles at various number. The "photon" related to energy exhibiting properties such as wave length color, temperature etc being may be probably due to the internal structure having different particles at various number.

Various atomic particles at different sizes in several numbers are present in the atom. Various astronomical objects at different sizes in several numbers are present in the Geo-universe.

Uniform comparisons between Atom and Geo-universe:

The similarities of internal structure and properties between the atom and Geo-universe are taken to propose that these two are having similar internal structure and properties.

1. Various atomic particles at different sizes in several numbers are present in the atom. In the similar way various astronomical objects at different sizes in several numbers are present in the Geo-universe.
2. These atomic particles having three types of charges at negative, positive and neutral states are present in the atom. In the similar way, these astronomical objects having three type of charges at positive, negative and neutral states are present in the Geo-universe.
3. Positively charged protons are present in the nucleus. In the similar way, stars built by atoms having positive charged nucleus are present in center of the neutrons at neutral state are present in the nucleus. In the similar way, planets at neutral state are present in center of the Geo-universe.
5. Negatively charged electrons are present at large distance of the atomic nucleus in the atom. In the similar way, there is a concept that anti-matter cosmic bodies built by atoms having negatively charpractnucleus are present at large distance of the Geo-universe.
6. Additional neutrons called isotopes are present. In the similar way, additional planets called satellites around the planets are present.
7. Radiation emitting from the atom. In the similar way, cosmic rays emitting from the Geo-universe.
8. There is a property of nuclear fission is in the atom. In the similar way, there is a property of super-nova is in the Geo-universe.

Study and discussion:

The Cosmology is one of the most creative and bizarre areas of science, concerned with the studies of origin, structure, nature and evolution of the universe. There

are two main theories, steady state theory and the terms Theory, that explain the structure of the universe. For example, The Big Bang Theory has faced many criticisms by many scientists as being inadequate to explain the relativity and complexity of the universe. Therefore, it is not sufficient to correctly model the origins of the universe.

According to Bud Rapanault (quora); 'The Big Bang Theory is essentially unscientific because the physical model it presents does not resemble the cosmos we observe in any of its particulars. None of the distinguishing features of the Big Bang Theory are part of the cosmological landscape that lies before us.

The Big Bang Theory itself and the *ad hoc* inflationary epoch are unobservable by terms of the model.

Curved and expanding space time cannot be directly detected but are integral to the model.

The Big Bang Theory model requires that 95% of the universe consist of some dark matter and dark energy neither of which can be empirically detected and both of which are simply additional *ad hoc* patches necessary to make the model predictions conform to physical reality.

In addition, the Big Bang Theory rests on two assumptions, one simplistic and naïve, the other dubious

The cosmos is a unified, coherent, and simultaneous entity.

The cosmological redshift is a recessional velocity.

According to George Yool (quora); current evidence like the cosmological principle, Hubble ultra deep field and alternatives like quantum relativity suggest a universe has no beginning or end in which big bangs are galactic processes we can observe empirically. There are many esteemed critics such as;

NASA WMAP beyond big bang theory;

Einstein evolving universe.

Hoyle The Bang Theory got its name from a man who thought the theory was total nonsense.

Plus 34 more famous scientists around the world in an open joint letter to the scientific community has been criticized the Big Bang Theory (Big Bang Theory Busted By 33 Top Scientists) Rense.com

Applications:

Extraterrestrial hazards:

Everyone should know about the origin, structure, nature, evolution of the universe and its various properties. Since, all the hazards on the earth directly or indirectly are associated with the gravitational forces of the universe. Further, this in order to be study the hazards, study of the cosmology is needed to know about hazards. There are hazards on the earth, on other planets and there are also happening within atoms. Human beings are on the earth, are on the outside planets of the earth and also on the neutrons in the atoms. Even if the world's people appreciate or criticize me, it is fact. Hazards caused by asteroids, meteoroids, and comets as they pass near the earth, enter the earth's atmosphere, and /or strike the earth, and by changes in inter planetary ionosphere, and atmosphere. In the face of extra terrestrial hazards and events that can lead to disasters, it is important to live in a resilient community because these types of disasters are so unpredictable and depending on the size of meteorite can cause serious damage through the heat emitted during impacts with earth's surface. In addition, impact can cause earth quakes, tsunamis, wildfires, acid rains from nitrogen oxides, darkness from dust and soot and global warming. It is for this reason that staying aware and prepared at all times is extra important. This is not an implication to live in fear, but a reminder to stay educated about these types of disasters and to have a plan in place as with any other type of disaster. Before an extraterrestrial hazards/events occur, there are some steps that can be taken to mitigate and minimize the impact. I have conducted many studies on the universe and its extra terrestrial hazards and gravitational forces and its affect on the natural hazards on the earth. A New Hypothetical Model of Cosmology will helpful to study and know the universe, extra terrestrial hazards and gravitational forces and its affect on the natural hazards on the earth.

The impact of the gravitational forces on Earth's atmosphere:

The year to year change of movement of axis of the earth inclined at 23½ degrees from vertical to its path around the sun does play a significant role on the Earth's atmosphere and stimulates the weather. The inter-tropical convergence zone at the equator follows the movement of the sun and shifts north of the equator merges with the heat low pressure zone created by the rising heat of the sub-continent due to direct and converging rays of the summer sun on the India sub-

continent and develops into the monsoon trough and maintain monsoon circulation.

Studies Carried Out: Many studies were carried out on this hypothesis and it was successfully proved out in practically and theoretically.

Conclusion:

I would like to have an extensive discussion on my hypothesis. My theory is the basic relating to the cosmology. Many things that visible to researchers relating to beyond the extreme deep intergalactic space and expanding universe etc. are yet to be explained. So scientists can review this New Hypothetical Model of Cosmology to theorize the actual universe and cosmology. .

Acknowledgements:

Many consultations are made with university professors and research scientists for their suggestions and advices. There was also taken some information from the Wikipedia. I am grateful to them.

Inquisition: The postulates about the creation, existence of god, theory of evolution and my thoughts such as to take and keep the entire underground by the control of Geoscope to study the underground mysteries, explore the underground resources, predict the geological hazards, attracting the sea and deep underground waters to the areas of deserts through the layers, attracting the vaporized sea waters to the desert plains through the sky by geo-magnetizing atmosphere when the weather is surrounded by water molecules during the trough of low pressure areas by using new technologies such as Geoscope; create artificial storms and making them our control by moving desert planes and pour rains; creating artificial rains; travelling into the past by using new technologies just like Time-Travel-Machine; Restore and re-create people in the past by using new biotechnologies just like Bio-Machine; restore and re-create people in past by images that are preserved in the earth's magnetic field by new technologies just like Geo-Machine; establishment of human habitations on inter-planets; to have relationship with living beings on the neutrons; to have relationship with living beings on the planets in the outside worlds of our Geo-universe etc. were exposed to the anger of fundamentalists and superstitious, subsequently got into violent altercations. As a result, my lab was destroyed and copies of my hypothesis were burned. I reported these repressions to the Revenue Divisional Officer. Amalapuram in July, 1977. The Revenue Divisional Officer was conducted an enquiry about this matter. While returning from the enquiry, on

forenoon, I was attacked by a mob and they had taken me forcibly to the village chavadi, Ryali, there fundamentalists and superstitious people were met and where I was beat up. Followed by altercations about my thoughts in the book, they beaten and forced me to put signatures on some prepared documents, and an offence falsely framed and foisted against me. After many tortures, I was sent to the Taluk Magistrate, Kothapeta and persuaded to renounce my views and ideas. The fundamentalists and superstitious people succeeded me in sentencing. The Taluk Magistrate was declared me as a dangerous boy and up to anything and issued sentence to punish and handed over to the Police Station, Ravulapalem. I was arrested on July 21, 1977. A case was registered and I was kept remand for some months in sub-jail and remaining period interrogated periodically. I had been driving with chains through the streets of Kothapeta from Sub-Jail to court during the timings of presenting to the court. The trials were done from April 2, 1979 to November 20, 1979. After many trials and arguments, the Hon'ble Additional Judicial First Class Magistrate Court was found me not guilty and acquitted on November 27, 1979.

Author bio: I'm an unfortunate Indian scientist that society throws away and government did not encourage and provide research opportunities, was born on May 25, 1958 in India to a poor depressed community family. Eventually, I built a small lab in my house and more than 1000 researches and studies have been conducted by me from the childhood age 1965 to till year 2022 earth and space science issues.

Among them, Bioforecast(1965-70), Irlapatism-A New Hypothetical Model of Cosmology (1970-77), Inquisition(1977-79), Basics of Geoscope (1980-87), Basics of Monsoon Time Scales (1987-91), Indian Monsoon Time Scale(1991), Researches on Earth and space related issues(1991-2000), Numerical Weather Periodic Tables(2000-10), Designs of Geoscope projects (2010-20), Designs of Global Monsoon Time Scales (2020-) etc. were important and successfully completed while Artificial rains for creating normal rains, Artificial storms for pouring heavy rains, Artificial underground waters for increasing ground waters, Time-Travel-Machine for traveling into the past, present future, Geo-machine for re-creating humans of past, Earth-machine for re-creating the another earth in the space, Inventing the life, Microcosm project for connecting and entering the worlds of micro organs, atomic-worlds, Macrocosm project for connecting and entering the worlds of space and outer space worlds etc. were uncompleted due to lack of support and opportunities.

However, much efforts and sacrifice did tho, I could not get government recognition and social support. My researches and studies on Artificial rains, Artificial storms, Artificial underground waters, Time-Travel-Machine, Geo-machine, Earth-machine, Inventing life, Re-creation of humans of past etc. and my campaigns to dispel superstitions, remedial education, literacy programs and science popularization programs etc. and my proposals such as "photon is a gigantic universe as same as our universe and atom in which there are galaxies, stars, planets similar as in our universe and/or electrons, protons, neutrons similar as in atom; atom is a gigantic universe as same as our universe in which there are galaxies, stars, planets in the form of electrons, protons and neutrons and there are continents, oceans, countries, living beings on some neutrons similar as on the earth; the universe seen around our earth is a tiny atom in another ascending order of creation etc. were subjected to the wrath of upper communities, racists, fanatic officials and as well as fellow scientists.

I have conducted many studies on the origin, nature, structure and evolution of the cosmos during the period of 1970-77 and proposed A New Hypothetical Model of Cosmology with hundreds of postulations. In 1977, a book was published in the name of Irlapatism--Irlapati Theoty of universe on the basis of the postulations of the hypothesis by the supporters. My thoughts and proposals in the book were exposed to the anger of fanatic people and I got into a violent altercation about these postulations of the hypothesis. As a result I was subjected to the suppressions and persecutions. I reported these suppressions and torments to the revenue divisional officer. Amalapuram on 6-7-1977 the revenue divisional officer was conducted an enquiry about this matter on forenoon, July 21st, 1977 while returning from the enquiry, I was attacked by a mob and they had taken me to the village chavadi. Followed by an altercation with tortures about the theory, they beaten and forced me to put signatures on some false documents, and an offence falsely framed and foisted against me. After that I was sent to the taluk magistrate, kothapeta for another trial with the investigation of the superstitions, the taluk magistrate was declared me as a dangerous boy and up to anything and issued sentence to punish me and handed over to the police station, ravulapalem. The police was arrested me on July 21, 1977 registered a case and sent to remand, I was kept imprisoned some months in subjail and remaining period interrogated periodically by panatics and officers. The trials were done between April 2, 1979 to November 20, 1979. After many trials and arguments, the Honorable Additional Judicial

First Class Magistrate Court was found me not guilty and acquitted on November 27,1979.

I tried to find out a lot of inventions and discoveries and basic ideas. But I am not giving research facilities. However, I could not do further researches on many more research ideas due to lack of opportunities. My goal is to take and keep the entire underground under into the control of Geoscope to study the underground mysteries, explore the underground resources; predict the geological hazards; attracting the sea waters to the underground areas of deserts through the layers by electro-ionization; attracting the vaporized sea waters to the desert plains through the sky by geo-magnetizing atmosphere when the weather is surrounded by water molecules during the trough of low pressure areas, Create storms and making them our control by moving desert planes and pour rains; creating artificial rains; travelling into the past by using new technologies just like Time-Travel-Machine; Restore and re-create people in the past by using new biotechnologies just like Bio-Machine; restore and re-create people in past by images that are preserved in the earth's magnetic field by new technologies just like Geo-Machine; establishment of human habitations on inter-planets; to have relationship with living beings on the neutrons; to have relationship with living beings on the planets in the outside worlds of our Geo-universe etc . But all hopes have become obsolete

However, much efforts and sacrifice did tho, I could not get government recognition and social support. My researches and studies on Artificial rains, Artificial storms, Artificial underground waters, Time-Travel-Machine, Geo-machine, Earth-machine, Inventing life, Re-creation of humans of past etc. and my campaigns to dispel superstitions, remedial education, literacy programs and science popularization programs etc. and my proposals such as "photon is a gigantic universe as same as our universe and atom in which there are galaxies, stars, planets similar as in our universe and/or electrons, protons, neutrons similar as in atom; atom is a gigantic universe as same as our universe in which there are galaxies, stars, planets in the form of electrons, protons and neutrons and there are continents, oceans, countries, living beings on some neutrons similar as on the earth; the universe seen around our earth is a tiny atom in another ascending order of creation etc. were subjected to the wrath of upper communities, racists, casteists and religious people as well as fellow scientists and resulted into oppression on me. They invaded my laboratory, abused and beaten, humiliated and tortured me in many ways. Illegal cases were framed and foisted against me. I faced trials, handcuffed and led

through streets, and imprisoned. I am a victim of racism and discrimination, negligence and jealousy. I am now making my life's last journey due to disregard and despair and serious illness and severe poverty that's no food to eat, no fabrics to put on and no money to take treatment for the asthma cardiovascular disease.

Appeal:

Kindly find out my researches in all social networking websites or can obtain by sending your email to me. These findings are very helpful for research institutions, universities researches. And also these findings can be very helpful for Ph.D students, Postdocs, professors, seniors, scientists and science enthusiasts who want to innovate. I will send them the valuable information I have.

For example, those who want to design Monsoon Time Scales for their regional or country Monsoons and conduct weather predictions have trouble in making the Monsoon Time Scales, kindly contact me at my email id gangadhar19582058@gmail.com and take my suggestions and assistance. I will send you complete details of this scale. Further if you want, I will create a manual Monsoon Time Scale and send the same to you for study. However for this, data of list of monsoon pulses in the form of monsoonal low pressure systems, depressions and storms formed over their monsoon region or country last 100& above years since 1880 as cited in the Reference-1 (i.e Mooley DA, Shukla J(1987); Characteristics of the west ward-moving summer monsoon low pressure systems over the Indian region and their relationship with the monsoon rainfall. centre for ocean-land atmospheric interactions, university of Maryland, college park, MD.) have been taken as the data to establish this scale. I will make and send it to you.

I am now making my life's last journey in serious illness and poverty. Illness weakening the health and mind slows down and forgetfulness is coming. It is not known how long I will live and when I will die, but I know my time is near. Hence, I humbly request that if world scientists have invented any technology in future that re-create humans of past, kindly remember and re-create me to complete my uncompleted researches as attendant in your research institute. .

BIG BANG THEORY BUSTED BY 33 TOP SCIENTISTS (May 27, 2004)

Our ideas about the history of the universe are dominated by Big Bang theory. But its dominance rests more on funding decisions than on the scientific method.

According to Eric J Lerner, mathematician Michael Ibison of Earthtech.org, and dozens of other scientists from around the world: The big bang today relies on a growing number of hypothetical entities, things that we have never

observed – inflation, dark matter and dark energy are the most prominent examples. Without them, there would be a fatal contradiction between the observations made by astronomers and the predictions of the Big Bang theory.

In no other field of physics would this continual recourse to new hypothetical objects be accepted as a way of bridging the gap between theory and observation. It would, at the least, RAISE SERIOUS QUESTIONS ABOUT THE

VALIDITY OF THE UNDERLYING THEORY. But the big bang theory can't survive without these fudge factors.

Without the hypothetical inflation field, the big bang does not predict the smooth, isotropic cosmic background radiation that is observed, because there would be no way for parts of the universe that are now more than a

few degrees away in the sky to come to the same temperature and thus emit the same amount of microwave radiation.

Without some kind of dark matter, unlike any that we have observed on Earth despite 20 years of experiments, big-bang theory makes contradictory predictions for the density of matter in the universe. Inflation requires a density 20 times larger than that implied by big bang nucleosynthesis, the theory's explanation of the origin of the light elements. And without dark energy, the theory predicts that the universe is only about 8 billion years old, which is billions of years younger than the age of many stars in our galaxy.

What is more, Big Bang theory can boast of no quantitative predictions that have subsequently been validated by observation. The successes claimed by the theory's supporters consist of its ability to retrospectively fit observations with a steadily increasing array of adjustable parameters, just as the old Earth-centered cosmology of Ptolemy needed layer upon layer of epicycles.

Yet the big bang is not the only framework available for understanding the history of the universe. Plasma cosmology and the steady-state model both hypothesize an evolving universe without beginning or end. These and other alternative approaches can also explain the basic phenomena of the cosmos, including the abundances of light elements, the generation of large-scale structure, the cosmic background radiation, and how the redshift of far-away galaxies increases with distance. They have even predicted new phenomena that were subsequently observed, something the big bang has failed to do.

Supporters of the big bang theory may retort that these theories do not explain every cosmological observation. But that is scarcely surprising, as their development has been severely hampered by a complete lack of funding. Indeed, such questions and alternatives cannot even now be freely discussed and examined. An open exchange of ideas is lacking in most mainstream conferences.

Whereas Richard Feynman could say that "science is the culture of doubt," in cosmology today doubt and dissent are not tolerated, and young scientists learn to remain silent if they have something negative to say about the standard big bang model. Those who doubt the big bang fear that saying so will cost them their funding.

Even observations are now interpreted through this biased filter, judged right or wrong depending on whether or not they support the big bang. So discordant data on red shifts, lithium and helium abundances, and galaxy distribution, among other topics, are ignored or ridiculed. This reflects a growing dogmatic mindset that is alien to the spirit of free scientific enquiry.

Virtually all financial and experimental resources in cosmology are devoted to big bang studies. Funding comes from only a few sources, and all the peer-review committees that control them are dominated by supporters of the big bang. As a result, the dominance of the big bang within the field has become self-sustaining, irrespective of the scientific validity of the theory.

Giving support only to projects within the big bang framework undermines a fundamental element of the scientific method -- the constant testing of theory against observation. Such a restriction makes unbiased discussion & research impossible. To redress this, we urge agencies that fund work in cosmology to set aside a significant fraction of their funding for investigations into alternative theories and observational contradictions of the big bang. To avoid bias, the peer review committee that allocates such funds could be composed of astronomers and physicists from outside the field of cosmology.

Allocating funding to investigations into the Big Bang's validity, and its alternatives, would allow the scientific process to determine our most accurate model of the history of the universe.

BIOBIBLIOGRAPHY

The major events in my life and references of some important research publications are also listed below along with supported documents in a chronological order. The only important ones are given below. Many more publications and services that are done but not listed in the references below.

1	25 th May, 1958	Born in a group of lowest social caste system(ranked as Mala in scheduled caste) traditionally to be untouchable in India.
	May25,1958	I, Gangadhara rao irlapati, an unfortunate Indian scientist born on 25 th May,1958 in a group of lowest social caste system(ranked as Mala in scheduled caste) traditionally to be untouchable in India. Parents: Pullaiah Irlapati(father),Manikyam Irlapati(mother); Brothers&Sisters:Sampath Rao Irlapati(brother),Saroja Irlapati(sister),Bhagyam Irlapati(sister), Gangadhara Rao Irlapati(self), Kalavathi Irlapati(sister), Balaji Irlapati(brother); Spouse: Satyavathi Irlapati; Children: Pullaiah Naidu Irlapati(son), Prudhvi Irlapati(son), Saroja(daughter); My wife and childrens are argumentative, negative and ill-tempered who vehemently opposed my researches and they were mentally torturing me.
	Education	I acquired scientific interest and conscious inherently by birth. I did primary education from 1 to 5 th classes in Government Elementary High School, Merlapalem(1963-1968); 6 th & 7 th classes in Government Upper Primary School, Vubalanka(1969-1971); 8 TH to 10 TH classes at Government High School, Ravulapalem (1971-74); Intermediate 11+12 classes at M.G.Jr. College, Atreyapuram(1974-76). I studied graduation B.A. degree in Andhra University(1985-89) and obtained post-graduation M.Sc degree in disaster mitigation sciences from Sikkim Manipal University(2001-03).

	<p>Researches</p>	<p>With an ideal to serve the people from weather problems and natural calamities through scientific researches, I went around governments and organizations for research support and opportunities. But the Governments and councils did not encourage and provide opportunities; officials & researchers ridiculed me and pushed out. My thoughts angered the fundamentalists and superstitious. Despite being oppressed and not getting research opportunities, I built a small lab at my house with available resources and mathematical instruments, drawings, designs, home-made apparatus, scrap reference books and did many researches and studies on anticipating weather changes and natural calamities that can be performed either in easy methods or at complicating infrastructure; either with big amount or at no cost; either by common researchers or by great researchers from 1965 to present. But the governments did not encourage and provide research opportunities and the society threw away me. They ridiculed and humiliated me when I asked to provide research opportunities. After many rejections and humiliations, I built a small lab in my house and made more than 1000 researches, studies and postulates on the earth and space science from my childhood 1965 to old age 2022. Among them, Bioforecast(1965-70), Irlapatism-A New Hypothetical Model of Cosmology (1970-77), Inquisition(1977-79), Basics of Geoscope (1980-87), Basics of Monsoon Time Scales (1987-91), Indian Monsoon Time Scale(1991), Researches on Earth and space related issues(1991-2000), Numerical Weather Periodic Tables2000-10), Designs of Geoscope projects (2010-20), Designs of Global Monsoon Time Scales (2020-) etc. were important and successfully completed. However, Artificial rains for creating normal rains, Artificial storms for pouring heavy rains, Artificial underground waters for increasing ground waters, Time-Travel-Machine for traveling into the past, present future, Geo-machine for re-creating humans of past, Earth-machine for re-creating the another earth in the space, Inventing the life, Microcosm project for connecting and entering the worlds of micro organs, atomic-worlds, Macrocosm project for connecting and entering the worlds of space and outer space worlds and postulates like "photon is a gigantic universe as same as our universe and atom in which there are galaxies, stars, planets similar as in our universe and/or electrons, protons, neutrons similar as in atom; atom is a gigantic universe as same as our universe in which there are galaxies, stars, planets in the form of electrons, protons and neutrons and there are continents, oceans, countries, living beings on some neutrons similar as on the earth; the universe seen around our earth is a tiny atom in another ascending world etc. remains uncompleted due to lack of support and opportunities. In addition, I tried to find out some inventions on the basis of some super research ideas/proposals but could not do further researches on those research ideas due to lack of opportunities. Besides these, I have done also various other services and play active role in many fields science popularization programmes, modern scientific ideas of hierararchical, infinite and innumerable universes, mysteries and rational thoughts of the creation and cosmo and general taking an active part in issues such as literacy programmes, remedial programmes, rationalize programmes, etc that concerned greater good of the community associated with many organizations like Peoples Action For Rural Awakening, Ravulapalem. Apart from these,</p>
<p>2</p>	<p>1965-70</p>	<p>Started little experiments at the age of 7th year, with home-made apparatus, mathematical box and pencils etc and invented the Lisposcope(1965) Discovered some bubble like objects later named as Biolumucells (Boiluminiscent micells(1966)). I found the relationship between the weather changes and the number of micells later it was named as Bio-forecast effect(1969).</p>

	Bioforecast	<p>From 1965 to 1970, I started doing researches and studies around 10th year of my childhood. Organisms such as animals, fish, birds, reptiles, and insects etc have a biological genetic forecasting system that predicts weather changes and disasters in advance. Many researches and studies did on this biological genetic forecasting system between 1965 to 1970, and invented Lisposcope in 1965, Biolumicells (Bioluminescent micells) in 1966, and “Bioforecast effect” in 1969. These are my first inventions which can help to forecast the weather changes 18 days in advance. I tried to break the mystery of how organisms can detect weather changes and disasters in advance.</p> <p>This system was efficiently conducted and proved in the presence many researchers and institutions. Although weakened by forecasting property with less successive rate, it is a primary and natural biological genetic forecasting method. The important prediction of the Bio-forecast was proved in 1991. In 1991, the Andhra Pradesh State Council of Science & Technology, The Andhra Pradesh Remote Sensing Applications Centre and the Andhra Pradesh Science Centre were conducted experiments on the relationship between the biosphere and atmosphere (explore the inter-connection of earth's geomagnetic field with natural calamities and their effect on human impulse). In these observations, the maximum level of the Biolumicells were recorded between 7th to 11th of April, 1991. It is the sign of the ensuing cyclone of the 28th April 1991. The three directors of the said institutions were met in the Andhra Pradesh State Council of Sciences & Technology on 9TH, April 1991 and discussed about the prediction. As predicted on 9th April 1991, in the meeting a severe cyclone was formed in Bay of Bengal and strike the Bangladesh on 28th April 1991. As a result, thousands of people were killed and crores of rupees property was damaged. This is the Great prediction by the Bio-forecast and the remaining predictions were weak. Global researchers can do more research and develop on this natural biological genetic forecasting method and use it for the welfare of global humanity.</p>
3	1970-77	<p>Built a small lab with home-made apparatus, small telescope, mathematical instruments, collected a number of books relating to the cosmology along with sacred books and did immense chapters on the origin, structure, nature and evolution of the creation. Discussed the same with professors & lecturers and taken their views. Finally, I proposed a hypothesis with several postulations and proposals. In 1977 on 1st July, A book was published in the name of Irlapatism-Irlapati Theory of Universe. The proposals in the book were instantly repulsed by the superstitious. As a result I was subjected to the anger of fanatic people and officials. My lab was destroyed and copies of the books of my theory were burned.</p>
	Irlapatism	<p>Between 1970-77 years I have done extensive researches and studies on the origin, nature, structure and evolution of the creation and proposed basics of creation. Based on those basics, A New Hypothetical Model of Cosmology was proposed in 1977. A book was also published and released on 1st July, 1977 in the name of Irlapatism-Irlapati Theory of Universe by the supporters. All matters pertaining to the creation such as Origin, Structure, Nature and Evolution were widely discussed in this hypothesis. According to this Hypothesis “Irlapatism” the creation is made up of universes in infinite number that are having similar structure and properties, embedded one in each other and extended in ascending and descending order in the form of a super fluid substance amalgamation. To explain and justify this model, there are three universes so far known to us (a) Geo-Universe (b) Atomic-Universe (c) Photon-</p>

		Universe. These three are having similar structure and properties, embedded one in each other and extended in ascending and descending order.
	Inquisition	These Basics of creation particularly my views on underground can be controlled by a system named National Geoscope System, artificial rains can be poured, artificial storms can be created, artificial underground waters can be increased, time-machine, space-machine, geo-machine, images of living beings living on earth are preserved in the earth's magnetic field and they can be created by a machine named geo-machine and most important of all the atom has a gigantic internal structure similar to our universe and there are worlds, continents, seas, countries, humans on the neutrons and our gigantic universe seen around oetc restore and recreate people in past by images that are preserved in the earth's magnetic field by new technologies just like Geo-Machine; establishment of human habitations on inter-planets; to have relationship with living beings on the Neutrons; to have relationship with living beings on the planets in the outside worlds of our Geo-universe etc were instantly traduced, exposed to the anger of fanatic people and got into violent altercations. As a result, I was subjected to the anger of fanatic people and officials. My lab was destroyed and the copies of books of the hypothesis were burned. I reported these persecutions and torments to the Revenue Divisional Officer. Amalapuram in july,1977. The Revenue Divisional Officer was conducted an enquiry about this matter. While returning from an enquiry, on forenoon, July 21 st , 1977, I was attacked by a mob and they had taken me forcely to the Village Chavadi, Ryali, there superstitious people were met and where I was beat up. Followed by an altercation about the basics and ideas of the book, they beaten and forced me to put signatures on some prepared documents, and an offence falsely framed and foisted against me. After intense tortures, I was sent to the Taluk Magistrate, Kothapeta and persuaded to renounce my views and ideas. The superstitious people succeeded me in sentencing. The Taluk Magistrate was declared me as A dangerous boy and up to anything and issued sentence to punish and handed over to the Police Station, Ravulapalem. I was arrested on July 21, 1977. A case was registered and I was kept remand for some months in sub-jail and remaining period interrogated periodically. I had been driving with chains through the streets of Kothapeta from Sub-jail to Court during the timings of presenting to court. The trials were done from April 2, 1979 to November 20,1979. After many trials and arguments, the Hon'ble Additional Judicial First Class Magistrate Court was found me not guilty and acquitted on November 27,1979.
4	Petition Dated:6 th july, 1977	I submitted a petition to the Revenue Divisional Officer. Amalapuram about these torments after publication of my theory of creation.
5	July,1977	While returning from the enquiry, I was attacked by a mob and they had taken me forcely to the Village Chavadi, Ryali, there superstitious people were met and where I was beat up. Followed by an altercation about the ideas of my hypothesis, they beaten and forced me to put sign on some prepared documents, and an offence falsely framed and foisted against me.
6	Taluk Magistrate Report, Report No.A-2-5873/77.Dt.July 21 st A.N 1977	After tortures, I was sent to the Taluk Magistrate, Kothapeta.. The superstitious succeeded me in sentencing. The Taluk Magistrate was declared me as A Dangerous Boy and Upto Anything and issued sentence to punish me and handed over to the police station.. .

7	53/77, July, 22 nd , 1977. F.N	A case was registered against me. I was kept remanded in sub-jail. I had been driving with chains through the streets of Kothapeta from Sub-Jail to Court during the timings of presenting to court.
8	Additional Judicial First Class Magistrate Court Judgment & judgment. C.C.No.13/79,	The trials were done from April 2, 1979 to November 20, 1979.
9	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.2 7 th November, 1979, Page No.1	Judgment
10	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.2 7 th November, 1979 Page No.2, para-5, lines 5-9,	The thing that came up in the inquest was that the superstitious and fanatic people grew wild on the logic of the Creation & God issue in my hypothesis of creation I published and distributed.
11	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.2 7 th November, 1979 Page No.3, para-5, lines 10-12	The thing that came up in the inquest was that an enquiry was conducted by the Revenue Divisional Officer
12	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.2 7 th November, 1979 Page No.3, para-5, line-13	The thing that came up in the inquest was that a case was falsely framed and foisted against him.
13	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.2 7 th November, 1979 Page No.3, para-6, line 14-19	Taken, beaten and obtained his signatures forcibly; produced before the Tahsildar and handed over to the police station.
14	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.2 7 th November, 1979 Page No.3, para-6,	The thing that came up in the inquest was that establishing a case against him, beyond all reasonable doubt ?
15	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.2 7 th November, 1979 Page No.4, para-7, line-1	The thing that came up in the inquest was that he was beaten
16	Additional Judicial First Class Magistrate Court Judgment.No.13/79, Dt.2 7 th November, 1979 Page No.4, para-7, line 3&4	The thing that came up in the inquest was that there was an altercation regarding the existence of God (Theory of creation)

17	Additional Judicial First Class Magistrate Court Judgment.No.13/79,Dt.27 th November,1979	The thing that came up in the inquest was that the Hon'ble Additional Judicial First Class Magistrate Court was found me not guilty and acquitted me on 27 th ,November 1979.
18	1980-82	1980-82: I suffered serious financial problems; I did not have food to eat, fabrics to put on and there was no house to live. However I built a small lab with home-made apparatus and did immense many studies and experiments to propose a revolutionary architecture in the name of Geoscope.
19	1982-87	Joined in the Gram Panchayat Forest Scheme(1982-87) to contend financial difficulties. I made that opportunity favorable to researches and played active role in the fields of social forest schemes, environmental protection programmes, urban forestry and other awareness programmes of environmental protection under the Gram Panchayat, Merlapalem and made many studies in the fields of Agricultural meteorology, climate and crops, farming systems, weather & its effects on environment, interactions of weather with grasses, trees, agro-ecosystems, yield forecasting, disaster management, environmental pollutions, climate change etc that concerned greater good of the nature and environment.
	1980-87	From 1980, I started working out t Geoscope and designed the Basics of Geoscope for all world countries
	Basics of Geoscope	<p>Between 2000-10, I conducted many researches and studies on the world geological regions and applied them to the Geoscope and proposed and designed the Geoscopes for all world regions and countries with many proposals such as studying all over earth system dealing with the physical and chemical composition and it's atmosphere including geological hazrds; breaking the underground mysteries; searching&exploring the underground resources; predicting&mitigating the geological hazards; attracting the deep underground/sea waters to the areas of deserts and rain shadow areas through the layers by electro-ionization and increase the underground waters; attracting the vaporized atmosphere/sea waters to the desert/rainshadow areas through the sky by electrically geo-magnetized atmosphere when the weather is surrounded by water molecules during the trough or low pressure areas; creating artificial storms and making them to our control by moving desert/rainshadow areas and pour rains; restoring and recreating people in past by images that are preserved in the earth's magnetic field by new technologies just like Geo-Machine etc. These are not what Buckminster had proposed Geoscope in 1962. Geoscope proposed by me is completely different intended to study the earth's underground&surfaceground for public purposes.</p> <p>The Geoscope is a geological system that studies the underground by setting up a number of Geoscopes in different locations and analyzing the data in a coordinated manner. For example, to study earthquakes one or more required number of Geoscopes should be established in the expected earthquake zones. The observation personnel in the respective Geoscopes should watch the onset of earthquakes day and night. There should be established a Regional Geoscope Centre at every expected quake zone to co-ordinate and codify the information supplied by the local Geoscope Centers of the zone. There should be established a central processing centre to co-ordinate and codify the information supplied by the local geoscope centres from all over country in a coordinated manner. Whenever a local geoscope centre sends warning about the onset of earthquakes, the observation personal should immediately send the information to its centralrocessing centre. The central processing center should analyze the</p>

		<p>information supplied by the local geoscope centre and estimates the epi-centre, time, area to be affected urban places etc., details of the impending earthquake and send to the authorities, and media and warnings in advance to take precautions.</p> <p>In 2003, The Secretary, Andhra Pradesh Public Service Commission was forwarded a research project to the Chief Minister's Office for implementation of a drought combat poroject. .</p>
20	A.J.V.B.M. Rao Hon'ble Member of Parliament Lr. Dated: 3 rd , December, 1987	Sri A.J.V.B.M. Rao Hon'ble Member of Parliament was recommended the Geoscope proposals to Sri K.R.Narayanan, Union Minister of Science & Technology, New Delhi. (became the then President of India) for further research and development in the services country.
	1987-91	Between 1980-87, I proposed and started making Basics of Monsoon Time Scales for all world local, regional, and global monsoon
	Basics of Monsoon Time Scales	<p>Monsoons are crucial in the climate system; a seasonal reversing wind accompanied by its corresponding weather changes and natural calamities in precipitation and moves according to the gravitational forces. We cannot be said that a monsoon especially to be relevant to a particular continent, region or country. Each and every continent, region or country has its own seasonal monsoonal winds. So monsoon system is spread all over the globe. Between 1987-91, many researches were conducted by me on the world local, regional and global monsoon systems and proposed Basics for Monsoon Time Scales to study the past's, present and future movements of monsoon systems and its relationship with rainfall and other weather problem and natural calamities.</p> <p>In 1991, A detailed report on the Global Monsoon Time Scales (Indian Monsoon Time Scale) was submitted to the Director General of Meteorology, India Meteorological Department for further research and implementation.</p> <p>In 1991, Shri G.M.C. Balayogi, Hon'ble Member of Parliament was forwarded the Global Monsoons Time Scales (Indian Monsoon Time Scale) to the Indian Meteorological Department for implementation in services of the nation.</p>
21	DalitVoiceJournal PageNo.20,21,June&July,1988	The Dalit Voice Journal published a story on the inventions&discoveries Lisposcope, Geoscope and A New Hypothetical Model of Cosmology etc and its consequences.
22	Minister,State,Science& Technology,Government of India, No.401/VIP/MOS/88 1988 Dated 9 th , December, 1988	Sri K.R.Narayanan was recommended the Geoscope project proposals to the Council of Scientific & Industrial Research in the capacity of Vice-President, Council of Scientific & Industrial Research for further research and implementation.
23	Dated:03 rd , June,1989	As per the directions of the Council of Scientific & Industrial Research, a detailed report on the Geoscope project was submitted to the National Geophysical Research Institute for further research and implementation.
24	GramPanchayat,Melapalem,P.R.No1988,13 th ,December,1988.	Gram Panchayat, Merlapalem Village was sent a resolution to the Government to approve his inventions and discoveries just like Theory of creation, Monsoons Time Scale etc.

25	Hon'ble High-Court of Andhra Pradesh. Writ Petition No.12355, Dated: 6 th September,1989	The Hon'ble High-Court of Andhra Pradesh was also issued orders to the Government of India, Council of Scientific & Industrial Research, New Delhi, National Geophysical Research Institute, Hyderabad for provision of research facilities to carry out scientific investigations on the Geoscope and Monsoon Time Scales Project Proposals. When I met the N.G.R.I, they are insulted, refused to provide research facilities and pushed out to the gate.
26	1988	Shri G. Surya Rao, Hon'ble M.L.A was forwarded the Monsoons Time Scales projects to the Chief Minister of Andhra Pradesh for implementation in the welfare of the people.
27	Chief Minister, Andhra Pradesh, CMP No.17/Rev /L/89. Dated: 30 th January, 1989	Sri N.T.Rama Rao, The Chief Minister of Andhra Pradesh was issued orders for implementation of th Monsoons Time Scales in the welfare of the people.
28	1989	I went to Coconut Research Institute as per orders of the A.P.Agricultural University to conduct of fundamental experiments on some research projects by predicting climate changes through Monsoon Time Scales, attracting the sea waters to the underground areas of deserts through the layers by electro-ionization; attracting the vaporized sea waters to the desert areas through the sky by electrically geo-magnified atmosphere when the weather is surrounded by water molecules during the trough of low pressure areas. During this researches, I was man-handled.
29	1989-90	I conducted some experiments on Monsoon Time Scales, magnetic waters and research projects that attract the vaporized sea waters to the desert plains through the sky by geo-magnetizing atmosphere when the atmosphere is surrounded by the water molecules during the low pressure areas and also conducted fundamental experiments on a research project by which attracting the sea waters to the underground areas of deserts through the layers by electro-ionization; at Central Tobacco Research Institute, Rajamundry.
	1991	In 1991 I proposed Indian Monsoon Time Scale.
30	Lr. Dated: 15 th August, 1991	A detailed report on the Monsoon Time Scales was submitted to the Director General of Meteorology, India Meteorological Department through Shri G.M.C. Balayogi, Hon'ble Member of Parliament for further research and implementation..
31	Indian Meteorological Department. Lr. No.NA-153, Dated: 21 st October, 1991	Shri G.M.C. Balayogi, Hon'ble Member of Parliament was forwarded these Monsoons Time Scales to the Indian Meteorological Department for implementation in welfare of the nation.
32	Lr. Dated: 1 st November, 1991	According to the Indian Meteorological Department, I was sent a detailed report about the Global Monsoons Time Scales including Indian Monsoon Time Scale to the Indian Meteorological Department for implementation in welfare of the nation.
	1991-2000	Between 1991-2000, I researched on the relationship among the earth and space related issues and discovering many mysteries.
33	Andhra Pradesh State Council Science & Technology, Proc.No.AD	A Project was jointly had been organized by Andhra Pradesh State Council Science & Technology, Andhra Pradesh State Remote Sensing Applications Centre and Andhra Pradesh Science Centre on the inter-connection of Earth's Geomagnetic field with natural calamities and their effect on human impulse and

	MN/RESEARCH/231/' 91 Dt.25 TH June,1991	also to prepare a project that attract the vaporized Sea waters to the desert plains through the sky of geo-electromagnetizing atmosphere when the atmosphere is surrounding by the water molecules during the low pressure times and attracts the sea/underground waters to the desert underground areas through the layers by electro-ionization; During that research, The Director shouted biggerly and insulted among the staff for asking some money for food at that time I had no food to eat and no fabrics to put on.
	1991-2000	There are many myths, mysteries, truths, beliefs in the cosmology that current theories can not explain. Some issues in the cosmology are theoretical, meaning that existing theories seem incapable of of explaining a certain observed phenomenon or experimental result. The others are experimental, meaning that there is a difficulty in creating an experiment to test a proposed theory or investigate a phenomenon in greater detail. Some pertain to one-off events, unusual occurrences that have not repeated and whose causes therefore remain unclear. Between 1991-2000, I conducted many researches and studies on the relationships between the space and the earth proposed many things for studying the structure and properties of the cosmos; unraveling the mysteries of the cosmos and exercising the benefits of mankind and development of the astronomy. This theory led to many discoveries of the cosmology and many mysteries regarding the cosmology can be answered based on these as that all things in the creation which may be photon to atom, and cyclone to galaxy have the similar basic principles.
35	People's Action for Rural Awakening. 5 TH October,1993	I joined in the People's Action for Rural Awakening. I played active role in remedial and rationalize programmes and general taking an active part in issues such as literacy programme, science popularization programmes, remedial programmes, rationalize programmes,modern scientific ideas, ideas of hierararchical, infinite and innumerable universes, mysteries and rational thoughts of the cosmos etc that concerned greater good of the community associated with the organization of People's Action for Rural Awakening,Ravulapalem.
36	1993	I joined as Junior Assistant in A.P.P.S.C, Hyderabad. Financially convenient.
43	Cabinet Secretariate of India.DO.No.NMRF/SK M/30/94,Dated:17 th August,1994	Consultations were made with The Cabinet Secretary of India for implementation of the Global Monsoons Time Scales including Indian Monsoon Time Scale.
48	India Meteorological Department,No.NA-150,Dated:28 th November,1996	Consultations were made with the President of India and other VVIP through the Lok Sabha Secretariat for further research and implementation of the Indian Monsoon Time Scale(Global Monsoons Time Scales)
49	2000	Many Universities had expressed their complements on the Irlapatism-A New Hypothetical Model of Cosmology.
	2000-10	Between 2000-10, I did many researches regarding the Designs of Numerical Weather Periodic Tables for all world countries.
	Numerical Weather Periodic Tables	Astro-Meteorology or Meteorological Astronomy is a pseudoscience that attempts to forecast the weather changes and natural calamities. It is fact that the postion and motion of celestial objects can be used to predict both seasonal climate and weather.. Between 1991-2000 years, I conducted many researches and studies on the relationship between weather changes and gravitational

		<p>forces and designed the Numerical Weather Periodic Tables on the basis of Metonic cycle.</p> <p>I designed the Numerical Weather Periodic Tables with 21 blocks, each block containing certain prescribed cycle of years in which similar calendar years repeating one after another that leads similar weather conditions of those previous years to future years likely repeating every year approximately to study the monsoon and its weather conditions and natural calamities. Numerical Weather Periodic Tables are very useful in estimating climate many years in advance.</p> <p>Many Consultations were made with the Directorate of Statistics and Economics regarding implementation of the Weather Periodic Time Scales. In 2005, Consultations were made with the Indian Meteorological Department for implementation of the Weather Periodic Time Scales. In 2006, Sri D. Sambaiah, Hon'ble M.L.A was forwarded the Weather Periodic Time Scales to the Chief Minister of Andhra Pradesh for implementation in the welfare of the people. Consultations were made with the Commissioner for Disaster Management for implementation of Weather Periodic Time Scales. In 2009, Consultations were made with the Addl. Commissioner for Disaster Management for implementation of Weather Periodic Time Scales. In 2009, The Secretary, Andhra Pradesh Public Service Commission was forwarded Weather Periodic Time Scales to the Commissioner for Disaster Management for implementation. In 2010, A detailed research project on the Weather Periodic Time Scales was submitted to the Indian Meteorological Department for further research and development. In 2010, Negotiations with the A.P State Council of Science & Technology are conducted related to implementation of Weather Periodic Time Scales.</p>
59	<p>Directorate of Statistics and Economics Lr.No.2851.plg.X1/A2/2004-4 Dated:15th October, 2004</p>	<p>Consultations were made with the Directorate of Statistics and Economics regarding implementation of the Astro-Climatic Weather Time Scales. I collected a lot of rainfall & systems data and assess, assimilate, analyze the data and carried out many studies and prepared hundreds of numerical weather forecasting scales. Each scale containing certain prescribed cycle of years in which leads similar calendar years repeating one after another, the same repeating years leads similar weather conditions of those years also likely repeating each and every year of the same cycle approximately.</p>
60	<p>India Meteorological Department. No.49106 Dt: 25th July,2005</p>	<p>A detailed research project on the Indian Monsoon Time Scale was submitted to the Indian Meteorological Department for further research and development.</p>
61	<p>Commissioner for Disaster Management, 2008</p>	<p>Consultations were made with the Commissioner for Disaster Management for implementation of a disaster management project.,</p>
62	<p>2005</p>	<p>Consultations were made with the Secretary, Ministry of Science & Technology for further research and implementation of Geoscope and Indian Monsoon Time Scale.</p>
63	<p>A.P.StateLegalServices Authority,ROCNo.7387/LSA/2005 Dated:26th November,2005</p>	<p>I was proposed a project which can help to forecast the cyclones in advance. The A.P. State Legal Services Authority was forwarded that project proposals to the Chief Minister of Andhra Pradesh for implementation through the Disaster Management Department.</p>

64	2005	Consultations were made with the Indian Meteorological Department for implementation of the Weather Time Scales and Indian Monsoons Time Scales. Collected a lot of rainfall & systems data and assess, assimilate, analyze the data and carried out many studies and prepared hundreds of numerical weather forecasting scales. Each scale containing certain prescribed cycle of years in which leads similar calendar years repeating one after another, the same repeating years leads similar weather conditions of those years also likely repeating each and every year of the same cycle approximately.
65	Supreme Court Legal Services Authority, ROC No. 8664/2005 Dated: 2 nd June, 2006	Consultations were made with the Hon'ble Supreme Court Legal Services Committee to implement the Geoscope in the services of welfare of the people.
66	A.P State Council of Science & Technology, Lr .No.0393/S&T/20061, Dated: 19 th January, 2006	Negotiations were made with the A.P State Council of Science & Technology for implementation of a research project to recreate artificial rains and cyclones.
67	D. Sambaiah, Hon'ble M.L.A, Dated: 15 th April, 2006	Sri D. Sambaiah, Hon'ble M.L.A was forwarded the Indian Monsoons Time Scales and Weather Time Scales to the Chief Minister of Andhra Pradesh for implementation in the welfare of the people.
74	Commissioner for Disaster Management, L. No: 6524/DM1111, Dated: 19 th February, 2008	Consultations were made with the Commissioner for Disaster Management for implementation of a disaster management project.,
75	Minister of State for Mines, Lr. No. 209/MOS/PS/2008	I presented preliminary findings from my study about the world global monsoon systems and its effects on the Indian monsoon to Sri Dr.P.Subbarami Reddy. Sri Dr.P.Subbarami Reddy, Hon'ble Minister of State was forwarded these project proposals to the Indian Meteorological Department for implementation.
76	India Meteorological Department. No. GT02 (MISC)/6675Dt: 8 th August, 2008	Consultations were made with the Indian Meteorological Department for implementation of the Indian Monsoon Time Scale/Global Monsoons Time Scales.
77	Asst. Commissioner Disaster Management 25241/8 th July, 2009	The Andhra Pradesh State Weather Time Scale Project was sent to the Times Foundation for offer their remarks Indian Weather Time Scales are containing certain prescribed cycle of years in which leads similar calendar years repeating one after another, the same repeating years leads similar weather conditions of those years also likely repeating each and every year of the same cycle approximately.
78	6655/Dt: 13-8-2008	Indian Weather Time Scale was submitted to the India Meteorological Department. A lot of rainfall & systems data and assess, assimilate, analyze the data and carried out many studies and prepared hundreds of numerical weather forecasting scales. Each scale containing certain prescribed cycle of years in which leads similar calendar years repeating one after another, the same repeating years leads similar weather conditions of those years also likely repeating each and every year of the same cycle approximately.

79	Secretary, Ministry of Science & Technology, Lr. No. 2009	The secretary for the Department of Science & Technology was sent the Indian Monsoon Time Scale to the Indian Institute of Tropical Meteorology
80	Asst. Commissioner Disaster Management, Dt. 25241/8 th July, 2009	Consultations were made with the Addl. Commissioner for Disaster Management for implementation of a project.
81	Indian Meteorological Department, No.S-01416/Prediction. Dated: 9 th December, 2009	A detailed research project on the Indian Monsoon Time Scale was submitted to the Indian Meteorological Department for further research and development.
82	Indian Meteorological Department, No.S-01416/Prediction. Dated: 9 th December, 2009	A detailed research project on the Geoscope was submitted to the Indian Meteorological Department for further research and development.
83	Disaster Management Department, Lr. No. 25241/D M.111(3)/2009 Dt: 8-7-2009	A seminar was conducted in the Disaster Management on 13-7-2009 regarding the Indian monsoon movements and its weather changes and natural calamities
84	869/Dt: 15-7-2009	The Secretary, Andhra Pradesh Public Service Commission was forwarded a research project to the Commissioner for Disaster Management for implementation.
85	India Meteorological Department, No.F12016 Dt: 1-12-2009	Some experiments & studies were conducted on the Indian Weather Time Scale and submitted to the India Meteorological Department
86	India Meteorological Department No.S-01416 Dt: 9-12-2009	Some experiments & studies were conducted on Geoscope and submitted to the India Meteorological Department
	2010	From 2010 I started making Designs of Geoscope projects for all world countries.
87	Indian Meteorological Department, No.F12016/1/00-NADt: 9-7-2010	Many studies were carried out on the Indian weather chronologically and formulated the Indian Weather Time Scale in which collected a lot of rainfall & systems data and assess, assimilate, analyze the data and carried out many studies and prepared hundreds of numerical weather forecasting scales. Each scale containing certain prescribed cycle of years in which leads similar calendar years repeating one after another, the same repeating years leads similar weather conditions of those years also likely repeating each and every year of the same cycle approximately and sent the same to the India Meteorological Department
88	Andhra Pradesh State Council of Science & Technology, Lr. No. 1/APCOS T/NRDMs-Dt: 16-7-2010	Negotiations with the A.P State Council of Science & Technology are conducted related to implementation of the A.P State Weather Time Scale.
	2010-20	Between 2010-20 I designed several Geoscope projects to all world countries.

	<p>Designs of Geoscope</p>	<p>Between 2000-10, I conducted many researches and studies on the world geological regions and applied them to the Geoscope and proposed and designed the Geoscopes for all world regions and countries with many proposals such as studying all over earth system dealing with the physical and chemical composition and it's atmosphere including geological hazards; breaking the underground mysteries; searching&exploring the underground resources; predicting&mitigating the geological hazards; attracting the deep underground/sea waters to the areas of deserts and rain shadow areas through the layers by electro-ionization and increase the underground waters; attracting the vaporized atmosphere/sea waters to the desert/rainshadow areas through the sky by electrically geo-magnetized atmosphere when the weather is surrounded by water molecules during the trough or low pressure areas; creating artificial storms and making them to our control by moving desert/rainshadow areas and pour rains; restoring and recreating people in past by images that are preserved in the earth's magnetic field by new technologies just like Geo-Machine etc. These are not what Buckminster had proposed Geoscope in 1962. Geoscope proposed by me is completely different intended to study the earth's underground&surfaceground for public purposes.</p> <p>The Geoscope is a geological system that studies the underground by setting up a number of Geoscopes in different locations and analyzing the data in a coordinated manner. For example, to study earthquakes one or more required number of Geoscopes should be established in the expected earthquake zones. The observation personnel in the respective Geoscopes should watch the onset of earthquakes day and night. There should be established a Regional Geoscope Centre at every expected quake zone to co-ordinate and codify the information supplied by the local Geoscope Centers of the zone. There should be established a central processing centre to co-ordinate and codify the information supplied by the local geoscope centres from all over country in a coordinated manner. Whenever a local geoscope centre sends warning about the onset of earthquakes, the observation personal should immediately send the information to its centralprocessing centre. The central processing center should analyze the information supplied by the local geoscope centre and estimates the epi-centre, time, area to be affected urban places etc., details of the impending earthquake and send to the authorities, and media and warnings in advance to take precautions.</p> <p>In 2003, The Secretary, Andhra Pradesh Public Service Commission was forwarded a research project to the Chief Minister's Office for implementation of a drought combat poroject. .</p>
89	2020	<p>From 2020, I started making Designs of Monsoon Time Scales for all world local, regional and global mo</p>
	<p>Designs of Monsoon Time Scales</p>	<p>Monsoons are crucial in the climate system; a seasonal reversing wind accompanied by its corresponding weather changes and natural calamities in precipitation and moves according to the gravitational forces. We cannot be said that a monsoon especially to be relevant to a particular continent, region or country. Each and every continent, region or country has its own seasonal monsoonal winds. So monsoon system is spread all over the globe. From 2020, many researches were conducted by me on the world local, regional and global monsoon systems and proposed basics for local, regional and global monsoon time scales including regional monsoon time scales, sub-regional monsoon time scales, northern monsoon time scales, southern monsoon time scales, summer monsoon time scales, winter monsoon time scales and country-wise monsoon time scales for all regions and countries to study the past's, present</p>

		<p>and future movements of the global monsoon systems and its relationship with rainfall and other weather problem and natural calamities.</p> <p>At present, many researches are being conducted on the global monsoon systems with an ideal to invent the mysteries of the world global monsoon systems and formulating the Basics of the Global Monsoons, Regional Monsoons, Sub-Regional Monsoons and Country-wise local Monsoons, Northern, Southern, Summer and Winter wise Monsoons to predict the weather changes and natural calamities in advance and to take mitigation measures.</p>
	<p>Uncompleted missions</p>	<p>There are some unsolved inventions in the field of scientific researches. World scientists should pay attention to the failures. I started basic level researches on more than 100 such ideas and prepared research notes but could not complete due to lack of support and opportunities. I am placing these before the world scientists. I hope these inspire the world scientists and carry out researches in that direction.</p> <p>I tried to find out many inventions on the basis of some super research ideas. The proposals for these researches are placed before the respective research Institutes described above. But I am not giving research facilities and could not do further researches on those research ideas due to lack of opportunities. My goal is keeping the entire underground under into the control of Geoscope to study the underground mysteries, exploring underground resources; predicting geological hazards; attracting sea waters to the underground areas of deserts through the layers by electro-ionization; attracting the vaporized sea waters to the desert areas through the sky by electrically geo-magnified atmosphere when the weather is surrounded by water molecules during the trough of low pressure areas, creating storms and making our control by moving them to desert areas and pour rains; creating artificial rains; travelling into the past by using new technologies just like Time-machine; restoring and recreating people in the past by using new biotechnologies just like Bio-machine; restoring and recreating people in past by images that are preserved in the earth's magnetic field by new technologies just like Geo-machine; establishing of human habitations on inter-planets; having relationship with living beings on the Neutrons; having relationship with living beings on the planets in the outside worlds of our Geo-universe; creating another similar earth worlds by tracing out images of earth of previous years or centuries by space-machine etc but couldn't complete due to lack of support and opportunities.</p> <p>Artificial rains: Artificial rains has proposed&designed me through this it is possible to pour rains in required desert and rain prone areas to save people from droughts and famines. Artificial Rains Research Proposal is proposed and designed by me and prepared a scientific methodology with some clues and ideas to create artificial rains and also keep them under our control and pour rains in the required desert and rain-prone areas and tried to conduct researches . I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities.I call on world scientists to do researches that create Artificial rains.</p> <p>Artificial cyclones: Artificial storms has proposed and designed by me with a scientific methodology with some clues and ideas hrough this it is possible to pour rain waters in required desert and rain prone areas to save people from droughts and famine. I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that create Artificial storms.</p>

	<p>Artificial underground waters: Artificial underground waters has proposed and designed by me with a scientific methodology with some clues and ideas through it is possible to increase underground waters in required desert and rain prone areas to save people from droughts and famines. I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that create Artificial underground waters.</p> <p>Invention of life: Invention of life has proposed and designed by me to invent life with a scientific methodology with some clues and ideas through this it is possible to revive living beings. I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that invent life.</p> <p>Super-human: Super-human has proposed and designed by me with a scientific methodology with some clues and ideas which we can create super humans by ...he has super strength, super speed, super agility, super reflexes, super dexterity, super levitation, super flight, super invulnerability, super stamina, super jumping, super healing factor, super longevity, super immortality, super senses, super hearing, super olfaction, super telescopic vision, super x-ray vision, super microscopic vision, super eidetic memory or photographic memory, super genius level intellect, super solar energy absorption, super heat vision, super breath, super freeze breath, super dexterity, super invisibility and intangibility by vibrate his molecules, super outer space travel and super inner atomic space travel. He could fly so fast he could travel through time, his strength was enough to move the planet, his invulnerability became pretty much absolute, and he was given a raft of sensory powers-heat vision and even super ventriloquism. I have prepared necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that invent Super-human.</p> <p>Re-creation of humans of past: Re-creation of humans of past has proposed and designed by me with a scientific methodology with some clues and ideas to re-create humans of past through this it is possible to humans of the past can be re-created. I have prepared the necessary research basics notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that re-creation of humans of past.</p> <p>Bio-machine: Bio-Machine Research Project Proposal is proposed and designed by me with a scientific methodology with some clues and ideas to binvent it to create humans of past. I have prepared the necessary research basics notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that re-create humans of past..</p> <p>Time-machine project: Time-machine project I has proposed and designed by me with a scientific methodology with some clues and ideas through this it is possible to we travel to past and live. I have prepared the necessary research basic notes for this but uncompleted due to lack of support & opportunities. I call on world scientists to do researches that invent Time-machine.</p> <p>Geo-machine project: Geo-machine has proposed and designed by me with a scientific methodology with some clues and ideas through this it is possible to re-create humans of past who are embedded in the earth magnetic layers. I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do like Geo-machine.</p>
--	---

		<p>New-Earth-machine project: New-Earth-machine project has proposed and designed by me with a scientific methodology with some clues and ideas through this it is possible to re-create siresearchesmlar earth of past in the space which is embedded in the gravitational layers. New Earth Research Project Proposal was proposed and designed by me with methodology to binvent it and go back into past time I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that Earth-machine project.</p> <p>Microcosm project: Microcosm project has proposed and designed by me with a scientific methodology with some clues and ideas through this means connecting inner worlds of the atom directly in microscopic ways or entering into the atom microscopic foms. (Here is a very important point to be grasped that one second of us equal to is an era in the atom world world people.). Mission Travel into Atom Research Project Proposal was designed by me with methodology to binvent it and go back into past time.I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that Microcosm project .</p> <p>Macrocosm project: Microcosm project has proposed and designed by me with a scientific methodology with some clues and ideas that means connecting Outer-Geo-Worlds directly in macroscopic ways or entering into the Outer-Geo-Worlds in macroscopic forms. (Here is a very important point to be grasped that our one era is equal to a second in that outer-geo-worlds.). Travel Outer-worlds Project Proposal was designed by me with methodology to binvent it and go back into past time. I have prepared the necessary research basic notes for this but uncompleted due to lack of support&opportunities. I call on world scientists to do researches that Macrocosm project.</p>
90	*	<p>However, much efforts and sacrifice did tho, I could not get government recognition and social su researches were ignored and darkened. My researches such as Irlapatism-A New Hypothetical Cosmology, the existence of God in the gigantic universe is questionable, Artificial rains for creati rains; Artificial storms for pouring heavy rains and floods; Artificial underground waters for ground waters; Time-Travel-Machine for traveling into the past, present future; Geo-machine for humans of past from the images of past eras embedded in the layers of earth's magnetic field; Earth for re-creating another earth in the space; Inventing the life; Microcosm project for connecting ar the worlds of micro organs, atomic-worlds; Macrocosm project for connecting and entering the space and outer space worlds etc. were subjected to the wrath of racists, casteists, fanatics as well scientists and resulted into the oppression and humiliations on me. My lab was invaded. Illegal o framed and foisted against me. I was faced trials, handcuffed and led through streets during enquiries and court hearings and imprisoned. I am a victim of racism and discrimination, neglig jealousy. Political recommendations and officials support, cash and caste, region and religion r key role in giving support and opportunities, awards and rewards, respect and recognition to communities. But I have no of them. At last, I am now making my life's last journey due to and despair with illness and poverty. Illness weakening the health and mind slows o forgetfulness is coming. It is not known how long I will live and when I will die, but I know r near. I humbly request the world scientists that if world scientists have invented any tech future that re-create humans of past, kindly remember and re-create me to complete my un researches.</p>

Received a tipped report Taluk Magistrate Kotta Peta with contents as follows:-
 Ref. A.S. 5973/77 dt 21.7.77 Taluk office Kotta Peta.

From: Sri P. Subbarao, I. Com. Taluk Magistrate
 To: The Station House Officer
 Ravulapalem.

Sir,
 Subj: Signature - Forgery Signature - Sri Gopalapati gangadhara
 of Nerlapalem V. Report of the Revenue Inspector, Atreyapuram.
 Ref: Report of the Revenue Inspector, Atreyapuram dt 21.7.77.

The Rev. Inspector Atreyapuram enquired and reported that Smt. Kelangi Rathamma wife of Musalaiah of Nerlapalem Village applied for grant of a tree (Tamarind) situated on the north-west portion of her house for which house - site - Patta was granted. On the above petition the signatures of Village Munsiff, Nerlapalem and the Rev. Inspector Atreyapuram were forged.

The Rev. Inspector, Atreyapuram further reported that Smt. Kelangi Rathamma in her statement deposed that the second son of Sri Gopalapati Pullaiah forged the signatures. As such the Rev. Inspector Atreyapuram has called for the individual and examined in to the matter and reported that he failed to identify and left hand - writer. He accepted that he forged signatures and the Rev. Inspector of the village Munsiff, Nerlapalem and the Rev. Inspector, Atreyapuram. He is a very dangerous boy and is upto any thing.

In the above circumstances Sri Gopalapati gangadhara Rao of Pullaiah of Nerlapalem Village, the offender in the instant case may be dealt with according to law. Please intimate the action taken in the matter.

1. The following records are enclosed here with duty officiating and enclosed.
 2. Slip containing forged Signature.
 3. Statement recorded from Sri Gopalapati gangadhara Rao of Pullaiah of Nerlapalem Village.
 4. Statement of Smt. Kelangi Rathamma wife of Musalaiah of Nerlapalem Village.
 5. Report of the Rev. Inspector, Atreyapuram dated 21.7.77.

6. The offender is produced before you through the Rev. Inspector Atreyapuram for taking in to custody.

Enclo: - As stated above.
 (sd) P. Ramasubbaiah
 Head clerk.

IN THE COURT OF THE JUDICIAL MAGISTRATE OF THE I CLASS KOTHAPETA.
PRESENT: SRI D. VENKATARAMAYAM, B.COM., LL.B., Judicial Magistrate
of the I Class.

TUESDAY, the 27th day of November, 1979.

C.C.No. 13/79.

Between:

The State of Andhra Pradesh, through

The State Inspector of Police, Razole
Cr.No.53/79 of Ravulapalem P.S.

.. Complainant.

and

Irlapati Gangadhara Rao,
s/o Fullayya, Aged 19 yrs.
Merlapalem.

.. Accused.

This case coming on 20.11.79 for hearing before me in the presence of the State Complainant and the accused appearing in person and having stood over for consideration till this day, the court delivered the following:-

JUDGMENT

The Inspector of Police, Razole has laid the charge sheet in Cr.No.53/79 of Ravulapalem Police Station Under Sections 420, and 471 IPC against the accused herein.

2. The case of the prosecution is that P.W.1 is resident of Merlapalem village and she is living in a house constructed in R.S.No.129 in Merlapalem village which was given to her by the Revenue Department. There is a tamarind tree in the said house site near her house. The branches of the said tree were over-hanging on her house endangering safety to her house. She was advised to apply for patta of the said tamarind tree. The accused who had come to know about it approached P.W.1 two weeks prior to 21.7.77 and offered his services to get the tree of patta for her and he induced her to affix her thumb impression on the application written by him and wanted her to get the recommendations of the Village Munsif and Revenue Inspector, Atreyapuram. When she expressed her inability to secure their signatures he resorted to forging of the signatures of Village Munsif, Merlapalem and Revenue Inspector (P.W.4). Completing the application and the recommendations he presented the application in the Taluk Office,

is that he was beaten by P.W.4 and others and he was forced to put his signature on Ex.P3 and also Ex.P2. Further, the plea of the accused is that there was altercation between him and P.W.4 with regard to the existence of God and also with regard to obtaining of signature of P.W.4 on the caste certificate. Except, the confession statement of the accused Ex.P3 before P.Ws. 2 to 4, there is no direct evidence to connect the accused with the offences charged against him. P.W.4 is an illiterate. She does not know on which paper the accused obtained her thumb impression. Even for a moment sake, it is presumed that it is the accused who obtained the signature of P.W.1, on Ex.P1, Ex.P1 itself is completely in torn condition and the Tehsildar, Kothapeta who is competent authority to grant patta of the tamarind tree, would not have acted upon the petition Ex.P1. Moreover, the prosecution failed to explain the reason why the accused forged the signature of P.W.4 and the Village Munsif, Merlapalem on Ex.P1 and by forging the signature what is the wrongful gain the accused wanted to obtain. There is no evidence to show that it is the accused who filed Ex.P1 petition and other enclosures in the Tehsil Office, Kothapeta. Further, there is a typed petition filed in this case which contains the recommendation of the Village Munsif and the recommendation of Revenue Inspector-P.W.4. It is not marked by prosecution. To support a conviction U/s. 467 IPC, there must be evidence that the document is a false document, within the meaning of section 464 IPC and that it was forged by the accused with some intent mentioned in sec. 463 IPC. It is not sufficient that some possible intent may be inferred from the facts, it is necessary such intent should be established by evidence, which is lacking in this case. Under Sec. 420 IPC, there must be evidence that the person deceived delivered to someone, or consented that some person shall retain certain property, that the person deceived was induced by the accused to do as above, that such person acted upon such inducement in consequence of his having been deceived by the accused, that the accused acted fraudulently.

and that subsequently when he approached P.W.4 to sign on the caste certificate, he demanded Rs. 10/- from him and that subsequently he reported the matter to the Revenue Divisional Officer, Amalapuram about the demanding of illegal gratification of P.W.4. ←
 The R.D.O. Amalapuram has promised to enquire into the matter. ←
 Therefore, this case is falsely foisted against him. when he was ←
 coming from Ravulapalem the village servant took him before P.W.4. ←
 Thereafter he was ~~kept~~ taken to village chavidi where P.Ws. 1 to 4 were present and they beat him and obtained his signature on Ex.P3 and subsequently he was taken to the Pansilkar, Kothapeta from there he was sent to Police Station, Ravulapalem and that he is innocent and he did not commit any offence.

6. The point for consideration is whether the prosecution has been able to establish its case against the accused, beyond all reasonable doubt? ←

7. The case of the prosecution is that the accused forged the signature of P.S.4 the Revenue Inspector and village Munsif, Merlapalem (who is no more alive). Ex.P1 is the petition which contains the alleged forged signatures of village Munsif, Merlapalem and Revenue Inspector (P.W.4). Ex.P1 is in torn condition. The alleged signature of village Munsif, Merlapalem is completely torn and the signature of P.W.4 is also torn completely except some portion. It also contains the thumb impression alleged to have been affixed by P.W.1. The prosecution to establish that it is the accused who is responsible for the alleged forgery of signatures of P.W.4 and village Munsif, Merlapalem relied on Ex.P1 petition and Ex.P2 the slip which is also alleged to have been signed by the accused in the presence of P.Ws. 2 to 4. There is no direct evidence available, in this case, who witnessed the forging of the signatures of P.W.4 and village Munsif, Merlapalem. Even the alleged signatures are in torn condition. Regarding the statement of the accused recorded by P.W.4 in the presence

dishonestly when so inducing that person, that the accused so induced that person intentionally, that such act of the accused was likely to cause damage or harm to that person in property. There must also evidence of fraudulent or dishonest intention at the time of the omission of the act in respect of which the cheating is alleged. Since the main part of the alleged signatures of P.W.4 and Village Munsif, Merlapalem (who is no more) are completely torn and Ex.P1 is in such a condition that the Tahsildar, Kothapeta would not have been acted upon it in granting patta of the tamarind tree to the petitioner i.e., P.W.1. Therefore the question of commission of offences of cheating and thereby dishonestly inducing delivery of property, forgery of a valuable security or authority to make transfer any valuable security and using a genuine a forged document which is known to be forged are not proved against the accused, beyond all reasonable doubt.

In the result, the accused is given the benefit of doubt. The accused is found not guilty of the offences punishable Under sections 420, 467 and 471 IPC. and he is acquitted Under sec. 248(1) Cr.P.C.

Dictated to the Shorthand-writer, transcribed by him, Corrected by me and pronounced in Open Court on this the 27th day of November, 1979 in the presence of the accused.

Sd.D.Venkata Narayana, 27.11.79
Judicial Magistrate of the
1st Class, Kothapeta.

Appendix of evidence.
Witnesses examined for.
